

How to „mouse“ – important information regarding animal experiments and their setting

When: 20.03.2023 from 15:00-19:00

Where: CFL location Himberg, Brauhausgasse 34, 2325 Himberg

Who: The event is for all MUV PhD students and postdocs planning and/or conducting mouse experiments

Arrival: Bus from AKH 1Q (CFL) to Himberg and back, departure 14:00 - return 19:00

Dear Colleagues!

The Core Facility Laboratory Animal Breeding and Husbandry in Himberg and the RepRefRed Society cordially invite all PhD students and Postdocs to a workshop/information event focusing on mouse experiments and husbandry. This event is sponsored by the Ludwig Boltzmann Gesellschaft and part of the project "Establishing a culture of appreciation through knowledge exchange".

Talks:

- ❖ The Austrian 3R Center, a platform to implement 3Rs in research
- ❖ The mouse behind the screen & what happens after the PyRat task
- ❖ Animal committee and legal regulations
- ❖ Embryotransfer – how, when, why?
- ❖ Internal procedures regarding mice of the MUV and Q&A

Afterwards there will be a social get-together including dinner. There will also be the opportunity to take a guided tour of the new mouse house in Himberg in small groups.

A bus will take you to the Himberg location and back to Vienna. Arrival by private car is of course also possible, free parking is available. Please register by **08.03.2023** at office@reprefred.eu with your name, institute and whether a bus transfer is required. Places are limited, first come first serve.

We look forward to welcoming you to our event!
